

/\*Aim : WAP to find if entered number is even or odd.

Name : Mohammed Aquib

Roll no :6

UIN :241A006

Division:A

\*/

```
#include<stdio.h>
```

```
int main()
```

```
{
```

```
    int num;
```

```
    printf("\t\t\t*****EVEN ODD FINDER*****\n\n\n");
```

```
    printf("Enter a Number=");
```

```
    scanf("%d",&num);
```

```
    if(num%2==0)
```

```
        printf("%d is Even",num);
```

```
    else
```

```
        printf("%d is Odd",num);
```

```
    return 0;
```

```
}
```

```
/*
```

Expected Output 1:

```
*****EVEN ODD FINDER*****
```

```
Enter Number:12
```

```
12 is Even
```

Expected Output 2:

```
*****EVEN ODD FINDER*****
```

```
Enter Number:13
```

```
13 is Odd
```

```
*/
```
